ADULTS WHO WORK WITH LEAD NEED TO TAKE PRECAUTIONS

Protect yourself and your families from lead poisoning.

- Wash hands before eating, drinking, smoking or touching your face.
- Store street clothes in a separate locker from your work clothes.
- Shower, wash your hair and change into clean clothes before leaving work.
- Wear the proper protective equipment on the job, including a respirator.
- Wash work clothes separately from other laundry. After washing lead-contaminated clothing and removing them from the machine, run the rinse cycle once before using the washing machine again.

Talk with your doctor about getting a lead test for you or your child if:
- You believe you have been exposed to lead
- You are at risk of lead exposure

For more information, visit www.michigan.gov/lead or call the Childhood Lead Poisoning Prevention Program at 517-335-8885.
